NEW
Mozart LR
The Perfect Pixel – Now in Linear Format!
- Multiple units interlock horizontally or vertically

Mozart FLR
The Mozart with the Flare Look
- Tight and bright!

KASMER
Diffusion/Filter Holders for Flare, Flare Jr and Mozart

- Versatile – Quiet Theatre Mode, super bright Turbo Mode.
- Popular pixel-mapping functions. Instantaneous color mixing. Smooth 1200Hz refresh rate.
- Calibration function for 100% color and brightness matching between fixtures
- The Proven Industry Standard!

KASMER
Diffusion/Filter Holders for Flare, Flare Jr and Mozart

Flare Q+ Performance in a Linear Format!
- The biggest, brightest Flare!

Featuring Revolutionary Q+ Technology™

The Ultimate Eye Candy
Creative, flicker-free, pixel mapping fixtures. Compact, lightweight, silent operation, IP-Rated. Use anywhere!
Simple parallel wiring: Up to 10 fixtures, up to 100 m total to remote Drive
ProPlex Drives, PortableMount and RackMount versions

Innovative, highest quality, professional LED fixtures
World-Class brightness, dimming, colors, smoothness, control options, performance
Camera friendly, flicker free
**DEVICES**

/\Q Two [RDM]

Full-featured Bidirectional ArtNet/sACN-DMX Nodes for the Real World! Complex System Patching Simplified!
- Dual EtherCon ports allow very low latency linking of units.
- Ring topology capable. PoE power-in for dual power redundancy.
- Simple yet comprehensive feature set, intuitive control and management via on-board LCD, or web browser, or...
- ProPlex Software — The new, user friendly, powerful, comprehensive lighting network management solution

/\Q Tester LV [RDM]

The FIRST and only, powerful, full featured Network Tester designed for entertainment production. True all-in-one device!
**WINNER! Cine Gear Technical Award**
**WINNER! PLASA Innovation Award**
**WINNER! LDI Debuting Product Award**
For all the latest IQ Tester information and updates go to [forum.tmb.com](http://forum.tmb.com)

/\Q Micro [RDM]

2 DMX universes that go anywhere! Full featured! Powerful!

/\Q One Mini [RDM]

4 DMX Universes in a tour-ready Mini enclosure. IP65 version available!

Rugged Ethernet Switches
- Unique durable four-grade Ethernet switches. Intended for high-volume, multicast audio, communications, lighting, media, video, and other show-critical networks
- Shock-mounted components, advanced thermal management, locking Neutrik connectors. Managed or Unmanaged options.
- Compatible with AES67, ArtNet, Dante, GreenGo, HippoNet, HogNet, KINET, Livewire, MA-Net 2/3, Q-LAN, RAverNena, RDMNet, sACN, and more

GBS RackMount 1U 10-port and 2U 28-port Gigabit switches
- User-reconfigurable: Connectors can be added, removed, and swapped front to back, using the unique modular GBS connector panels
- New! LCD panel for simple switch configuration
- PoE versions available

GBS Mini
- 6-port, single fibre, Gigabit Switch

GBS EZ-LAN
The Managed Gigabit Switch Anyone Can Use!
- A few button presses set up to four discrete networks – lighting, audio, media, automation, communications, etc.
- 16 ports assignable in up to four separate VLANs

NEW ProPlex Software v2

Powerful, Simple Node and RDM Management Software!
- Updated with many new and useful interface features. Still ProPlex User Friendly!
- Manage all your IQs and RDM devices in one easy to use, powerful piece of software!
- DMX generation for ArtNet and sACN testing!
- Super simple and intuitive RDM device management

**DRIVES**

Porta ble mount, Desk mount, or Rack mount with optional RackMount Kit. IP-rated Portable versions available.

FloppyDrive

Durable, Reliable DMX control and power for LED Tapes and Neons, including FloppyTape and FloppyFlex. Also — RGB(W) “pixel” control for Digital FloppyFlex.
- PWM adjustable - 300Hz to 40kHz. Unique NeverHot™ driver technology.
- Available in 2-, 3-, 4-, and 5-wire versions

Mozart Drive

Durable, Reliable DMX control and power for Solaris Mozart LED fixtures
- Single-output PortableMount and four-output RackMount versions
- Addressing, monitoring, and reporting of all functions via RDM
NEW

**MasterFade**
Unique lighting playback/capture console with RDM functionality
- Control an entire universe, 6 channels at a time
- Capture static or dynamic scenes from an external console
- Setup and monitor RDM-capable devices

**SceneSwitch 8**
DMX A/B Switcher with Built-in 8-Scene Record/Playback
- Quick and easy switching between two 8-universe DMX sources
- 8-scene recording captures data from all DMX inputs
- Playback one or multiple HTPC scenes

**GBS Network Selector**
4-way Ethernet Source Selector and Combiner Perfect as a lighting console switcher!
- Instant, seamless selection of any one or two out of four network sources
- Retains links for truly instant switching.
- 4 x 1Gb In, 1 x 1Gb Out, with indicating button selectors

**NEW**

The Industry’s Leading DMX Splitters

**RackMount** 2x8 RDM - Two DMX512 inputs, individually switchable up to 8 isolated outputs. Full RDM capability. Also available 2x10 RDM, 2x8 DMX

**PortableMount** 2x8, RDM and DMX versions
Rugged, Compact, Goes Anywhere. Truss, Desk, or Rack!

**Mini** 1x5 RDM and DMX compact versions available

**IP Portable** 1x6 DMX, IP65 portable outdoor

**New!** PoE version available

**10GBS**
8-Port, 10-Gigabit Switch. CAT6a + Fibre
- The 10 Gigabit Switch built for the road!
- Innovative airflow design for maximum cooling. Shock-mounted components
- Finally! A durable, touring, high buffer-memory, 10 Gigabit Switch!

**ProPower® Motor Controller**
4-Way 3-Phase Portable Motor Controller
Convenient. Lightweight. Reliable.
- Durable control for four 3-phase chain hoists
- Available with 7-Pin, P14, or NEMA outputs
- Remote GO button pendant option

**ProPower® Company Switches**
Temporary Power Hookups You Can Trust
- 100% Rated 200, 400, or 600A breakers, 65,000A interrupt rating
- 65k SCCR symmetric rating with optional current limiting fuses
- Breaker lever lock standard
- Locking connection chamber with safety interlock
- All covers interlocked to breaker
- Top, side, or rear feed
- LED phase indicators
- Field adaptable to isolated ground
- Both Cam and Class K rated lug outputs standard
- Double neutral connector option
- 3-Phase digital power metering available

**W-DMX™**
The Standard for Wireless Technology!
- True “plug and play” for reliable wireless transmission of DMX data
- Tri-Band + Adaptive Frequency Hopping + Data-Safe = Dependability

**ProFlex® CyberScan™ Cable Tester**
Full-Featured Tester for Entertainment Cables of All Types.
- Connectors and configuration completely custom, to your specifications
- Automatically and instantly identifies intermittent, mis-wired, shorted, or failing cables!

**ProFlex RackMount Kits**
Easily rack mount ProFlex PortableMount and Mini Drives and Devices Small, Medium, and Large Kits for Single or Dual (2-unit) mounting

**Rack Mounted Power Distribution**

- Custom configured in ATA flight cases to your specifications
- Complete range of panels and components
- Over 2,000 racks sold and counting!
Pro Cables™
TMB Custom Cable Assemblies, Cables and Connectors
35+ years of proven, reliable quality. Rush service normal!

ProPlex Ethernet Cables
The World’s Most Durable Ethernet Cables!
CAT6a, CAT6a Extended, and now . . .

NEW! ProPlex CAT5e “Ultra” S/FTP Ethernet Patch Cable
Everything you loved about ProPlex CAT5e plus . . .
▪ Improved data integrity at longer lengths
▪ Improved ProPlex class-leading noise protection
▪ Reduced transmission degradation, even after years of heavy use and abuse
▪ Full Gigabit performance up to 90m
▪ Expanded flexibility – suitable for use in CAT6 applications
▪ Reduced DC resistance
▪ Reduced attenuation
▪ Improved N.E.X.T. (Near-end crosstalk loss)
▪ Increased tensile strength
Built for the Road!

PowerData Assemblies
▪ 12/3 + CAT6a or 14/3 + DMX
▪ Unique, Listed extra hard-duty combination cables

PowerData LV 8+2 Hybrid Cable
▪ Durable, tour-ready combination CAT6/Low-Voltage cable!
▪ Compatible with the Neutrik 8+2 XLR connector

ProPlex Rock & Roll Tactical Fibre
The World's Most Durable Fibre Optic Cables!
▪ Kevlar reinforced construction with unique tight buffered cores and extra strong double jacketing, with cut- and impact-resistant braided steel armouring. Exceptional protection against mishandling yet still flexible and easy to handle.

ProPlex Fibre Fanouts
▪ Unique, armoured 12- and 4-way Fibre fanouts with LC, ST or SC connectors.

ProCable 6-Circuit Cables
The First and Still the Best!
▪ Lightweight, extra hard-duty cables that handle well in all conditions
▪ Proven to withstand many years of heavy use on the road

All standard power cable assemblies built by TMB in North America, including 19-pin, 6-circuit assemblies, are cCSAus Listed for Hard Usage, or Extra-Hard Usage. This makes them suitable for use in entertainment production and staging applications, in compliance with National Electrical Code Articles 520, 525, and 530.
