

# ProMolded™

## Moulded 19-Pin Assemblies

ProSeries or KC 19-pin connectors now available in overmould assemblies!

**Rugged ProMolded assemblies offer maintenance-free performance and long service life.**

- Improved strain and flex relief
- Eliminate broken terminations and pushed pins
- No more broken backshells
- Greater pull strength
- Moisture and water resistant
- Easy to handle – quick connect and disconnect
- Interfaces with all conventional 19-pin six-circuit connectors
- Industrial-strength durability – perfect for touring, studios, theaters and more
- Long-term reliability – excellent return on investment
- 10 year warranty!

Break-in or break-out assemblies available with H07 cable and many connector choices.

## Moulded 19-Pin Assemblies

The ProSeries or KC connector insert is soldered by TMB's technical staff. Heatshrink tubing is applied over all connections. A strain relief is tightly crimped to the cable jacket.

A polypropylene inner mould fully encapsulates the connections and strain relief.

A Santoprene™ overmould is applied over the entire assembly including the male connector locking ring.

### Assembly Configurations

	Cable	Male Connector	Female Connector	Warranty
Multicables	ProCable 18x1.5	ProSeries, KC	ProSeries, KC	10 Years
	ProCable 18x2.5			
	ProCable 1218 Speaker			
	Starcable 18x1.5			
	Starcable 18x2.5			
Break-out	H07, standard or custom tail lengths including staggered configurations.	ProSeries, KC	16A CEE, 13A British, Schuko, PowerCon, Bare-end, other custom configurations.	10 Years
Break-in		16A CEE, 13A British, Schuko, PowerCon, Bare-end, other custom configurations.	ProSeries, KC
