Way Better Than Darkness!

*Martini

Variable White LED PAR

- 25° beam angle
- Extensive white color temperature control (2,800K–6,500K, CRI>90)
- Rugged housing
- Double yokes for floor and truss mounting
- Flicker-free operation
- PowerCon in and thru
- Includes power cable, and filter frame. Available accessories include a detachable top hat, and barndoor.

The compact Martini fixture features high-output Warm White and Cool White LEDs. The powerful LEDs are extremely bright and flicker-free, making the Martini exceptionally camera friendly for TV and other applications.

Specially selected LEDs provide cool and warm white with CRI greater than 90. Warm and cool white control between 2800K and 6500K, as well as color mixing can be adjusted in three different DMX modes or by using the onboard menu. The fixture has PowerCon in and thru and 5-pin XLRs for DMX. Convection cooling ensures silent operation in noise-sensitive applications. Double yokes facilitate floor or truss mounting. The fixture's rugged chassis makes it suitable for rental stock and fixed installations.

The Martini comes with power cable and filter frame. Available accessories include a detachable top hat and barndoor.
