Compact Linear RGBW Wash

- Intense colors
- Clear menu structure for easy operation
- 60° manually adjustable tilt
- Exceptionally smooth color mixing
- Flicker-free operation
- PowerCon in and thru
- Includes power cable, frost and clear lenses.

The Sidecar is a compact wash fixture in a unique, distinctive low-profile chassis. The horizontal head can be manually tilted 60°. The tilting function, combined with the wide 50° beam angle of the lens, makes the Sidecar perfect for illuminating large surfaces such as walls, cycs, and screens with deep saturated colors and no multi-color shadows. Interchangeable frost lenses are included with the fixture for greater diffusion. The compact Sidecar's low-profile makes it easy to hide in any installation or on a stage set. The fixture can be floor or truss mounted via eye hooks on the sides of the unit.

The Sidecar contains nine specially selected LEDs which provide vivid and intense colors. The powerful LEDs yield extremely high output and ensure flicker-free operation for TV and film applications. RGBW and dimming can be controlled in five different DMX modes or by using the onboard menu. The fixture features PowerCon in and thru and can be connected with 3-pin or 5-pin XLRs.

SPECIFICATIONS

Part Number	NUR156200
DMX channels	3, 4, 5, 6 or 11
Beam angle	50°
Power supply	100-240 VAC, 50-60 Hz
Power consumption	65 Watt Max.
Cooling	Low noise fan
Power connection	PowerCon in & thru
DMX connection	5-pin and 3-pin XLR in & thru
Dimensions (HxWxD)	18.9 x 5.5 x 4.13" [480 x 140 x 105 mm]
Shipping dimensions	21.7 x 17.7 x 15" [550 x 450 x 380 mm]
Weight	7.7 lb. [3.5 kg]
Shipping weight	9.7 lb. [4.4 kg]
Certification	CE, RoHS
IP rating	IP22
Included items	Power cable, Frost & clear lens
