Tornado Mk1 Retrofit Kits

Tempest Tornado moving light enclosures have now been in service in some very extreme locations for up to ten years. Now you can get another ten years out of your investment by upgrading all the active components with one of these new retrofit kits. Your older Tornados will be as good as new, and will now support DMX and RDM remote monitoring, for many more years.

Tornado MK1 Retrofit kits include:

- Stainless Steel Internal Chassis
- Stainless Steel Universal Fixture Mount
- DEC3™ Digital Enclosure Control System
- Fans, Heater and Stainless Steel Chimney(s)
- Replacement Stainless Steel Unistruts and hardware
- Replacement Marine Grade Latches
- Replacement Filters
- Installation Manual

Part Number	Description	✓
2000.RK	Retrofit Kit for Tornado 2000.MK1	
2100.RK	Retrofit Kit for Tornado 2100.MK1	
2200.RK	Retrofit Kit for Tornado 2200.MK1	
2300.RK	Retrofit Kit for Tornado 2300.MK1	
/120	Suffix for 120VAC operation (normally 208-230VAC)	

Which Kit do I Need?

Is this a MK1 Tornado?

All Mk1 Tornados have fiberglass bases.

Check the product label inside the Tornado for the model number,

and match it to the model number for the kit.

No product label?

- | | | |
|------|----------------|------------------|
| 2000 | 30"/76cm Globe | 2 fans |
| 2100 | 30"/76cm Globe | 4 fans |
| 2200 | 36"/91cm Globe | 4 fans |
| 2300 | 36"/91cm Globe | 4 fans |
| | | 2 external cowls |

These kits provide you not only with a complete new control system, fans and heater, but with replacement filters, and a complete set of stainless steel hardware, including Unistruts, Marine-grade Latches, and all fasteners.

Installation is straightforward, and should be done on a bench (not in situ). A detailed installation manual is included, and may also be downloaded from our web site.
